

## 713/ 715/ 825 series – Shieldable M12 Cable Connectors with Diecasted Zinc Thread Ring

- Change from brass to diecasted zinc of the M12 thread ring of the shieldable versions
- Integrated hexagon contour SW18
- Pre-defined mounting of the M12 screw with hexagon torque key 07-0079-000
- Change without any additional costs
- Introduction step by step as of 06/2008
- During the transition period some mix-ups can occur.
