

New Flyer PCB Connectors

A new flyer PCB Connectors presents Rosenberger's wide range of RF coaxial connectors for future PCB applications.

The Rosenberger spectrum includes solder versions and also surface-mount connectors in the standard series SMA, QMA, SMB, Mini-Coax or MCX. Many newly developed PCB connectors in innovative coaxial series such as SMP, Longwipe SMP, P-SMP, Mini-SMP, FMC, Micro-RF or multiport connectors open up new application fields and customer benefits.

Advantages of Rosenberger PCB connectors:

- High density due to very small sizes
- Minimum board-to-board distances
- Radial and axial misalignment using bullets
