

High performance internal harness solutions

Important!
The products listed here are a few selections.
There are no limits!!

High performance external harness solutions

We rely only on renowned suppliers and can therefore if needed guaranteed 25year lifespan on complete harness systems.

Field terminationable connector series. Compatible with the Zeus Fusion splice system.

Expanded Beam technology.

- Safety
- Improved operational ability
- Less susceptible to contamination
- Standardised interface
- Customised interface

We have fulfilled the following requirements

- Vibration 54g RMS
- Shock 1000g
- 500h salt spray
- (-)150 to +150 degrees
- IL 0,1dB
- RL 85dB

Fiber Optical Cable Systems

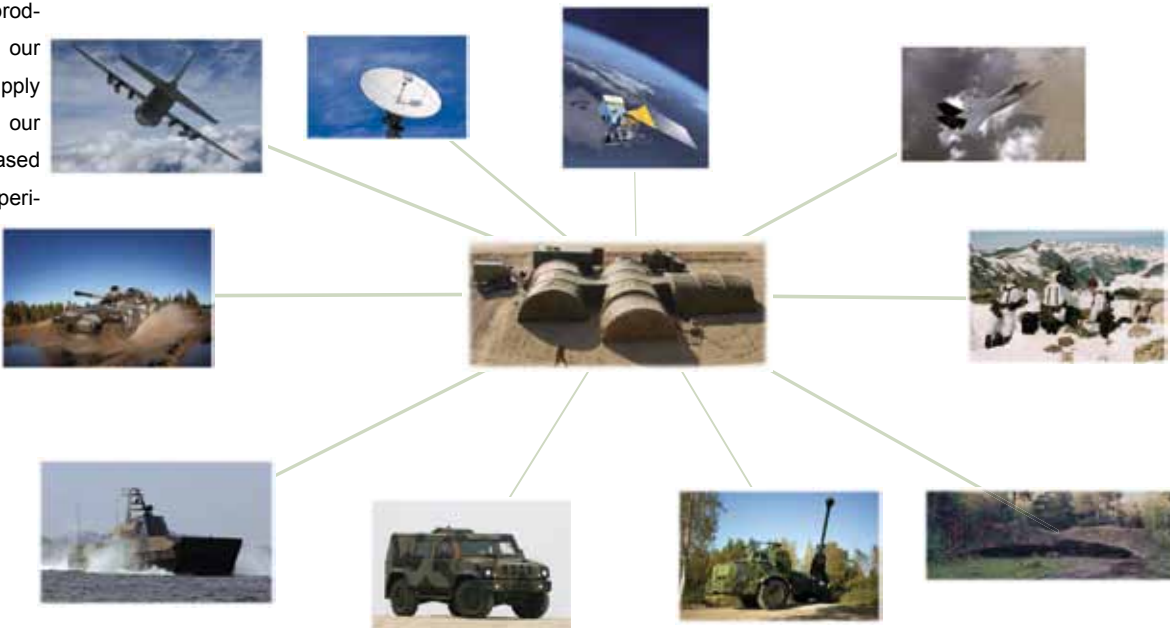

Innovative solutions based on expert knowledge and cooperation.

The group has worked with fiber optics for over 25 years and is continually involved in developing new products and solutions. The products qualified by our FTTM qualification program, ensure that we supply reliable solutions developed in accordance to our customers needs. Our qualification program is based on numerous exacting requirements and experiences, originating from customer projects with high profile customers such as Lockheed Martin, Finnish Defense Forces, SAAB, Kongsberg Defence & Aerospace, Norwegian Navy, Schlumberger, Patria, BAE Systems, ESA and others.

Contact us and we shall deliver a reliable and highly satisfactory solution.
