

## Positronic expands circular connector offering

May 3, 2010

Positronic has announced the release of a new circular connector line. Dubbed the “Baby King Cobra”, the new products are a miniature version of the company’s King Cobra circular connectors.

### Positronic appreciates customer recognition

The Baby King Cobra is available with three size 20 or six size 20 contacts. Contacts are rated at 7.5 amperes nominal. Working voltages to 250V r.m.s are available. The major diameter of the connector is only 20 mm.

The Baby King Cobra has an environmental rating of IP65. The connector can be supplied with a discrete hood or an overmolded hood. A screw-on dust cover option is offered. Cable-to-panel mount or in-line cable-to-cable configurations are standard options.
